Penn State Institute for Korean Studies

1ˢᵗ Korean Applied Linguistics Conference

Pennsylvania State University
State College, PA
2022 Feb 25-26, virtual conference

Call for papers

Deadline for Submission: December 15ᵗʰ, 2021
Notification of results: January 7ᵗʰ, 2022

The Penn State Institute for Korean Studies is hosting the 1st Korean Applied Linguistics conference, *Innovative Perspectives, Methodologies, and Approaches in Korean Applied Linguistics.*

Theme: *Innovative Perspectives, Methodologies, and Approaches in Korean Applied Linguistics*
Keynote Speakers: Dr. Danielle O. Pyun (Ohio State University), Dr. Susan Strauss (Penn State University), Dr. Jongoh Eun (DLI), and Hyunwoo Sun (Talk to me in Korean CEO and Developer)

With the growing enrollments in Korean programs and advances in Korean as a second language (KSL) theories, KSL has emerged as an independent academic discipline within the field of second/foreign language studies. It is, therefore, timely to bring researchers and practitioners together to define the field and present the latest research in KSL. The aim of the conference is to create a venue to present critical accounts of cutting-edge research within the field of KSL and its major subfields.

We ask prospective speakers to submit their proposals on any topic that addresses the general objective of the conference. The organizing committee welcomes abstract submissions for 20-minute oral presentations and poster presentations. Abstracts addressing any aspect of Korean Applied Linguistics in higher education are welcome. Topics include, but are not limited to:

- Korean second language acquisition
- Discourse analysis/critical discourse analysis
- Conversation analysis
- Language and society
- Cognitive linguistics
- Pragmatics
- Linguistic perspectives on Korean diaspora/ Linguistic landscape
- General linguistics and its implications for KSL teaching
- Language assessment

- Corpus linguistics and learner corpora in KSL
- Technology-enhanced language learning

For more information and abstract submission, please visit https://sites.psu.edu/kslconference/.
