Young Korean studies scholars about Korea: a new perspective on the Land of the Morning Calm

2nd International MA & BA student conference

Higher School of Economics, Moscow, Russia

June 20, 2026

In early summer 2024, the Department of Korean Studies of the School of Oriental Studies at the Faculty of World Economy and International Affairs of the HSE university held an international student conference on Korean studies, "Young Korean Studies Scholars about Korea: A New Perspective on the Land of the Morning Calm." Fifty BA and MA students from Russia, Azerbaijan, Brazil, India, the Republic of Korea, and the Middle East participated in it. Their presentations covered various aspects of the history, culture, literature, politics, and economics of the Republic of Korea and the DPRK.

The conference has established itself as a promising platform for inter-university academic exchanges and a venue where young researchers can showcase the results of their work and hear the opinions of senior colleagues. Therefore, the conference organizing committee is pleased to announce the call for papers for the Second International Student Conference on Korean Studies, scheduled for June 20, 2026.
